

PRESS RELEASE

Exclaimer Mail Utilities 2007 at CeBIT

Exclaimer Mail Utilities 2007 to make European debut at CeBIT

Farnborough, U.K. & Ottawa, Canada – February 19, 2008 – Exclaimer, provider of the world's best-selling suite of email utilities for Microsoft Exchange environments, today announced that its newest software suite, Exclaimer Mail Utilities 2007, will be unveiled for the first time in Europe at CeBIT 2008, March 4 – 9 in Hannover, Germany. Launched late last year, Mail Utilities 2007 is the first available suite of software tools that provide significant email enhancements to organizations using Microsoft Exchange 2007.

CeBIT is the world's largest trade fair showcasing digital IT and telecommunications solutions for home and work environments. Interested parties will be able to visit Exclaimer in Hall 4, Stand F80/3.

"CeBIT is a major industry event for us and we are looking forward to demonstrating the capabilities of Mail Utilities 2007 to a large European audience of industry professionals," said **Exclaimer CEO Andrew Millington**. "Since launching the new suite, we have been experiencing a high level of adoption among those companies making the shift to Exchange 2007 and look forward to discussing its benefits with other, similar organizations at the show."

The latest incarnation of Exclaimer's flagship product suite is designed for organizations that have implemented Exchange 2007 and want to utilize all the benefits that Exclaimer Mail Utilities offers.

Exclaimer Mail Utilities 2007 allows organizations to execute a host of powerful mail features at the server level, ensuring compliance with corporate-wide policies and procedures. It provides the ability to add disclaimers and signatures to outgoing email, take advantage of industry-leading anti-spam technology, establish auto-responder messages from any email address, perform email blocking and redirection functions, and perform a wide range of automated actions via a powerful rules engine.

Exclaimer Mail Utilities 2007 works seamlessly with handheld mobile devices and can handle any email format, be it plain text, RTF or HTML

About Exclaimer

Founded in 2001, Exclaimer's best-selling suite of software tools enable disclaiming, branding, signature, archiving, anti-spam, retention-policy enforcement, mail-store compression and regulatory compliance for corporate email, to ensure compliance to both internal requirements and external regulations. Easily installed on Microsoft Exchange Server, Exclaimer's applications give the IT department control over the email system for the entire enterprise without altering the individual user experience. Installation at the server level means attributes attached to an email appear uniformly whether an email is sent from a mobile device, the desktop or webmail.

Today, Exclaimer is the world's leading provider of mail utilities and software add-on products for Microsoft Exchange, with more than 27 million users worldwide. Exclaimer's customer base consists of companies of all sizes, from SMBs to Fortune 500 companies. For more information, please visit www.exclaimer.com.
